WEBSITE

Rexel & Gexpro new website allows you to search for the product you need for your job or project. Enhanced, smarter search returns more accurate products and the search within function allows you to quickly narrow down results. The in-stock filter allows you to easily see what we have available right now. Our new preferred product function gives you the ability to quickly favorite items you buy again and again. You are also able to quickly download invoices, spec sheets and submittals 24/7.

GET PAID TO SAVE!

By implementing energy-saving lighting measures you instantly start saving on your electricity bill. Utility Rebates help lower the cost of these measures, shortening the return on investment.

Over 3,000 utility companies across the nation offer a variety of rebates for lamps, ballasts, fixtures, and controls that reduce energy demand. These provide an alternative to the greater expense of expanding plant capacity and infrastructure maintenance.

WHAT'S A WATT WORTH?

WATT SAVINGS* (OVER 11 YEARS)

	100W MH	52W LED
Number of Lamps	12	12
Cost per Watt (\$.50 per year)	\$600	\$312
Total Watt Cost Over 11 Years	\$6,600	\$3,432

\$3,168 ENERGY SAVINGS WITH LED

*=DOE US Avg (actual varies by state) *Based on 12 hours/day, 365 days/year at \$.10kWh.

Color Temperature: A Guide to Kelvin

Color Temperature is a measure of the lamps color when illuminated, measured in degrees Kelvin.

DOLLARIZATION SOLUTIONS

Rexel & Gexpro know your costs are more than the price you pay - 80% of your cost to do business is tied to procurement, receiving, handling, warehousing, assembly and other non-product related activities. Our team can lead you in the right direction and document the savings. Our web-based Intelligence Tool collects data, tracks savings, shares information and generates real-time reports. It tracks savings opportunities against realized, proven results to uncover even greater savings.
