TABLET PRO
CUSTOMIZED JOBSITE ORDERING

TABLET PRO

Do you struggle dealing with paper requisitions and order forms? Rexel's Tablet Pro app is designed by contractors, for contractors to streamline and digitize the jobsite ordering and requisition process. It features easy-to-use graphical layouts for simple selection of the most commonly used products and can be configured specifically for each job.

HOW IT WORKS

- Items are grouped by how they're purchased and mapped to your specific manufacturers
- Blanket PO 'Max' quantities are loaded for tracking
- Role-based permissions are setup to fit your workflow
- Accessible on your iPad, Windows Tablet or PC
- Orders are transmitted via email
- We customize the app for each job

FEATURES

- Email alerts for up to three levels of approval
- "Write-in" functionality for unlisted items
- Over 11,000 items condensed into 25 easy-to-use ordering screens
- Available online or offline
- Customized item lists available

HOW YOU SAVE

- Streamlines jobsite ordering. No more paper!
- Curtails overspending
- Automates the approval process
- More accuracy
