# PROSTOCK INVENTORY MANAGEMENT

## SOLUTIONS CUSTOMIZED FOR YOUR BUSINESS

Inventory management is a huge challenge. No matter where your material is stored, you need to insure your people always have the right parts at the right time. Rexel's Prostock Inventory Management creates a custom program uniquely tailored to meet the material needs of your business, saving your time and money.

### HOW IT WORKS

- Rexel customizes a program to meet your needs
- Inventory is purchased based on agreed to levels
- All material is stocked, labeled and organized
- Material is replenished as needed on your schedule

### FEATURES

- Fast, accurate bar-code scanning via smartphone app
- Custom label maker and reporting capabilities
- Automated replenishment
- Vendor or customer managed
- Multi-vendor and location capability
- Track spending at the project level
- Multiple tracking fields that you define
- And much more!

### HOW YOU SAVE

- Reduces excess inventory
- Increases process efficiency
- Minimize human error
- Lowers purchasing and inventory carrying costs
