Connecting with the right partners gives Engineering, Procurement, and Construction companies an edge at any phase in new capacity development.

RANSOMWARE ATTACKS ON THE RISE

PAUL SAINATO
Rexel IIoT Business Development Manager

70% of Ransomware Hits Manufacturing: 4 Tips to Keep Your Factory Safe

Industrial manufacturers continue to be a primary target for cyberattacks – particularly through ransomware. This blog post outlines four key cybersecurity strategies to safeguard your manufacturing operations. By following these recommendations, manufacturers can significantly strengthen their cybersecurity posture and mitigate the risk of costly operational disruptions.

Improvements to Your Learning+ Subscription

Rockwell Automation's Learning+ Program provides the flexibility and convenience of learning at your own pace and on your own terms. Equipping workers with the right skills transforms them into adept problem solvers, leading to an impressive 83% decrease in troubleshooting times reported by subscribers.

We are thrilled to unveil a host of significant enhancements to the Learning+ Training Subscription. Effective March 26th, subscribers will enjoy an enriched user interface, a modernized user experience, and a variety of flexible platform options, including:

- Introduction of a New Knowledge Assessment Tool
- Upgraded Reporting and Administrative Tools
- Access to Live and On-Demand Genius Webinars

Unlock Your Potential Today

FactoryTalk Analytics GuardianAI

FactoryTalk Analytics GuardianAI software provides predictive maintenance insights via continuous condition-based monitoring. Maintenance teams will receive early warning of potential asset failures without installing additional sensors or monitoring equipment by using variable frequency drive data. The edge-based software provides premier integration with Rockwell PowerFlex drives delivering more value by using existing data for predictive maintenance and data-driven insights.
