### Safe + Sound Week: August 12-18 - Your Employees' Safety is Priority One

The most important thing is that your employees feel safe at work and return home safely at the end of every shift. [OSHA's Safe + Sound Week](#) is a nationwide event held each August that recognizes the successes of workplace health and safety programs and offers information and ideas on how to keep America's workers safe.

#### Consider these alarming statistics:

- **4,695** preventable workplace deaths occurred in 2022 alone.
- **\$1.39 million:** The average cost of a workplace death, a devastating loss for everyone involved.
- **Over 4.5 million** medically consulted injuries took place in the workplace.

These numbers highlight that workplace safety is not just a regulatory issue; it's about protecting the lives and well-being of your most valuable asset – your employees.

# 5 Strategic Advantages of AI for Predictive Maintenance

**MATT TROWBRIDGE**  
Rexel Information Software  
Business Development Manager

## DATA-DRIVEN DECISION MAKING

Get a clear picture of equipment health and make informed maintenance decisions

## OPTIMIZED INVENTORY MANAGEMENT

Proactively manage your parts inventory so you have the parts when you need them

## ENHANCED PRODUCT QUALITY

AI analyzes sensor data and gives you the opportunity for early intervention before defects hit your production line

## IMPROVEMENT THAT NEVER STOPS

AI learns from historical data and process-specific faults, becoming better at identifying anomalies and predicting equipment behavior

## STRENGTHENED BRAND REPUTATION

AI empowers you to avoid production delays, missed deadlines, and unhappy customers, protecting your reputation

### Predict Problems With FactoryTalk® Analytics™ GuardianAI™

- Reduced number of downtime events
- Minimized length of downtime events
- Increased maintenance team efficiency
- Reduced spare parts
- Increased plant safety
- Optimized maintenance activities

[Talk to an Expert](#)

Join us for an exclusive 4-day event program, Automation Fair® is now your single source to earn professional development hours for ongoing technical training, hear from world class industry leaders and explore the largest facility on the west coast, the Anaheim Convention Center.

It's everything you love about Automation Fair® plus the best of ROKLive, PowerPlex, and Process Solutions User Group - an all-in-one extraordinary event. With double the amount of expert-led training, inspiring keynote presentations, and a more interactive show floor, there's something for everyone at the 2024 Rockwell Automation Fair®.

### Two Essential First Steps for OT Cybersecurity

In the face of increasing cyberattacks on industrial manufacturers, taking proven steps towards a robust cybersecurity posture is crucial. This blog post guides you through two essential starting points: conducting a comprehensive asset inventory to understand your vulnerabilities and segmenting your OT systems to create a layered defense. By taking these initial steps, you can build a stronger foundation for your cybersecurity strategy and better protect your critical operations. Don't wait for a breach - start securing your industrial environment today.

### A (Brief) Guide to ESG for Industrial Manufacturers

In an era of heightened expectations and evolving regulations, industrial manufacturers are facing something new: ESG (environmental, social, and governance). This brief guide breaks down what ESG means for you and how you can take tangible steps to enhance your performance in all three areas. Learn how embracing ESG can attract investors, engage employees, win over customers, and drive innovation and profitability.

## Featured Learning

### Get Ahead: Unify Your Operations & Information

**August 15, 2024 | 10:00 AM - 11:00 AM CT**  
*Sponsored By: Rockwell Automation*

Learn how integration of manufacturing operations and information systems can improve productivity, safety, sustainability, and cybersecurity. This three-part webinar series will describe how unifying seemingly disparate processes and manufacturing applications with information systems across your operations will reduce design time and implementation costs, improve productivity, safety, and sustainability - while providing secure and contextualized information and analysis from device to boardroom.

### Going Beyond the State of Smart Manufacturing Report

**August 27, 2024 | 10:00 AM - 11:00 AM CT**  
*Sponsored By: Rockwell Automation*

Join our speakers as they define the role of OCM in smart manufacturing initiatives. They will explain the world-class frameworks and strategies that guide OCM initiatives and review how they can be applied in use cases to deliver transformative change. Understand why giving equal weight to OCM and technical innovation is essential for successful smart manufacturing adoption and learn about frameworks and strategies that can be applied to drive transformative change in smart manufacturing.
