- **TotalFORCE Technology**

Frame 7A PF755TS Compared to Frame 8 PF755

For questions, please contact King.Lewis@RexelUSA.com.

Multifunctional Access Box (MAB)

The Guardmaster® 442G Multifunctional Access Box is a unique combination of guard locking and access control, available in standard and with CIP safety. This integrated safeguarding solution is ideal for full body applications where guard doors require a higher holding force, a greater tolerance to guard door misalignment and a means for exiting the safeguarded area in an emergency. A choice of operator controls and other options offers flexibility to meet a variety of applications.

Using Common Industrial Protocol (CIP) Safety over Ethernet, the 442G adds to its list of features and benefits the advantage of premier integration with a GuardLogix® control system using Studio 5000 Logix Designer.
