## Issue Highlights

- FactoryTalk® Optix™: How-To Video Series
- Surge Protector & Filters
- FactoryTalk® Remote Access™ Endpoint: Stratix® 4300
- Rockwell Remanufacturing Services
- Lifecycle Services: PowerFlex DC Drive End of Life Transition
- 2024 Workforce Development

## Product Showcase

FactoryTalk® Optix™ Visualization for Visionaries

### Step-by-Step Instructions for Using FactoryTalk® Optix™

Improve your process, efficiency and deliverables with **FactoryTalk® Optix™**. Accelerate your value delivery by leveraging modern technologies, innovative designs, and scalable deployment options. Check out the [how-to video series](#) to see how easy it is to get started.

Watch step-by-step instructions to learn:

- Studio User Interface
- Communication Setup
- Responsive Design
- Object-Oriented HMI Design
- Recipes
- Alarms
- And more!

Access the FactoryTalk® Optix Video Playlist

## Surge Protector & Filters

Surge Protectors and Filters meet the needs of industrial surge and filter protection requirements. Our surge protectors and filters protect motor drives, contactors, industrial communication networks and more. They mount to a DIN rail or panel. Bulletin 4983 Surge Protectors and Filters cover a wider variety of protection needs.

- Bulletin Numbers 4983-DC, 4983-DD, 4983-DH, 4983-DS, 4983-PF

## Increase Network Visibility Easily with Stratix® 4300 Wireless Router

The Stratix® 4300 router now features both Wi-Fi and LTE (cellular) options. In addition to wired Ethernet, these options provide OEMs and customers additional flexibility for connectivity while reducing downtime and improving maintenance. As a dedicated secure platform for the FactoryTalk® Remote Access™ solution, which provides VPN connectivity with industrial networks, the Stratix® 4300 router provides increased visibility across the plant with or without a physical Ethernet connection.

## Rockwell Remanufacturing Services

Hard savings with a rock-solid **remanufacturing** strategy. We find that repairing an item can help, but it is not a robust solution. Rockwell provides a complete remanufacture of their products!

Our process includes:

- Remediating the issue
- Proactive component replacement
- Updating the product to latest specification
- Cosmetic restoration
- Warranty on the complete unit, not just components replaced
- All billable orders receive a comprehensive warranty for 12, 18, or 24 months

- Repair reports with all orders to help understand a probable cause for failure
