

LEVEL 0: STRATIX 5200 MANAGED ETHERNET SWITCH

HANDS-ON TRAINING

The Stratix® 5200 is the next generation fully managed ethernet switch and supports the operation of a secure network infrastructure for a wide range of industrial applications.

Join us to experience a hands-on-lab, **with training credit**, that will walk you through power-up, configuration, and advanced features.

YOU'LL LEARN

- Configure your Stratix 5200
- Leverage the WebUI Browser
- Troubleshooting Tools
- Backup & Restore Configurations
- Studio 5000 Add-On Profile
- Integration w/ FactoryTalk View SE
- VLAN, SVI, & Smartport Creation
- Ping & Traceroute
- Logs, Alarms, & Port Statistics

1783-CMS10DP
A \$3000 Value
