

Rexel

# Level 0: The Basics of Motion

## Main Topics

### Event Summary

We invite you to this interactive event to experience the latest motion control technologies from Rockwell Automation.

This power-packed seminar is for Controls Engineers looking to boost production, reduce downtime, and improve their design and commissioning time.

Engage in Hands-On Labs and Seminar Demonstrations to solidify your understanding of both fundamental motion control concepts and new innovative system concepts.

**Tue, Apr 15th**  
Rexel Cheektowaga  
505 Duke Rd #400,  
Cheektowaga, NY

**Thu, Apr 17th**  
Rexel Jamestown  
500 W 4th St,  
Jamestown, NY

*Morning & afternoon sessions available.  
Lunch provided.*

**Morning Session: 9:00am - 12:30pm**  
**Afternoon Session: 12:30pm - 4:00pm**

### Introduction to Motion Control

- Physics of Motion
- Application Considerations & Best Practices
- Installation Considerations & Best Practices
- Programming Considerations & Best Practices
- Rockwell Partner Network Motion Portfolio
- Live Hands-On Motion Demonstration

### Hands-On Labs

- Motion Fundamentals with Kinetix 5700
- 5 Minutes to Motion
- 5 Minutes to Tuning
- 5 Minutes to Gearing and Camming

**Registration Fee: \$450**  
**Space is limited. Register today!**
