

Smarter Maintenance Starts Here.

Maintenance challenges shouldn't hold your business back. At Rexel we understand that implementing new software can feel overwhelming, but with our expertise, it doesn't have to be. We make it easy to adopt the right CMMS, so you can focus on what matters most—keeping your operations running smoothly and maximizing ROI.

Software is just the start. Expertise makes it work.

Rexel's team of industry specialists ensures your CMMS is implemented seamlessly, so you can start seeing results faster. From consulting to training, we make sure your team is equipped to unlock their full potential.

+ Smooth Implementation

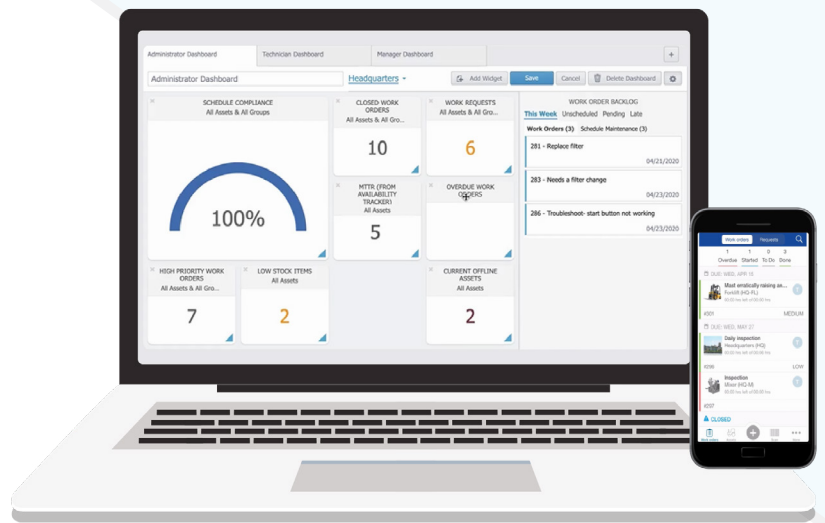

We handle the heavy lifting, so you don't have to.

+ Comprehensive Training

Empower your team to use Fiix effectively from day one.

+ Faster ROI

Our proven process ensures measurable results in less time.

The Benefits of Fiix CMMS

Save Time: CMMS users save an average of **15hrs** per week on administrative tasks.

Boost Productivity: Complete **30%** more work orders per month with streamlined workflows.

Increase Uptime: Companies see a **28%** increase in equipment uptime and a **20%** reduction in maintenance costs.

Fiix CMMS helps slash downtime, cut maintenance costs, and skyrocket productivity.
