Product Showcase

Stratix 2100 Unmanaged Industrial Ethernet Switch

The Allen-Bradley Stratix 2100 Unmanaged Industrial Ethernet Switch reduces the complexity of network deployments and delivery with its simple dip-switch settings and easy-to-install functionality. This small form-factor device improves network reliability that best meets overall network system design and application requirements.

End users will also benefit from reduced training needs, improved first time fix rates, and lower maintenance costs from the Stratix 2100. Offering gigabit speeds, Quality of Service, Energy-Efficient Ethernet, industrial-grade enclosure, and an extended temperature rating as a standard offering, this product helps protect against unwanted network traffic, prioritizing data as needed, while providing increased reliability and network security.

AMCI 5034-PTO-AM for PointMax™ I/O

AMCI introduces the **5034-PTO-AM**, a high-speed pulse train output module designed for Rockwell Automation's [PointMax™ I/O](#) platform. Built for performance and simplicity, it integrates directly with Allen-Bradley PLCs to streamline your motion control architecture. **Now accepting orders!**

What Makes It Stand Out?

The 5034-PTO-AM delivers precise pulse train output to control stepper or servo drives. Its flexible output formats (Step & Direction or CW/CCW) and built-in feedback support make it ideal for demanding motion applications.

- Up to 1 MHz pulse output frequency
- Supports incremental or absolute feedback
- 24V output (0.5–1 A) powers sensors and devices
- Compact, cabinet-friendly design

LifeCycle Services

Build Knowledge and Expertise

Want more information? Ask your authorized Allen-Bradley® distributor which **Learning+ training subscription** is right for you, or visit: rok.auto/training Copyright ©

Our E-learning courses include fundamental and product-specific topics delivered directly to your plant floor or location of your choice. Each learning module contains activities, software simulations and demonstration videos to help reinforce learning concepts. Virtual classroom sessions include modularized virtual lectures, lab experience demonstrations, simulations and demonstration videos.

Office hours are available for small group coaching to enhance learning concepts. More capabilities and more content. Live and on-demand Genius Webinars are featured monthly, and content is continuously being developed. Assessment tools help baseline your knowledge and e-learning modules are available in multiple languages.

Upskill your employees with flexible, on-demand training solutions

You're challenged to provide your current workforce with the technical skills and knowledge that will keep your production environment running smoothly. Our Learning+ training subscription provides the valuable instruction that you need, with help to make your training more effective.

Expanded training options now available

	Learning+	Learning+ Enhanced	Learning+ Craft Skills	Learning+ Plus
NEW ACCESS				
40+ automation courses	✓	✓	✓	✓
Virtual instructor-led training	✓	✓	✓	✓
160+ hours of industrial craft skill courses	✓	✓	✓	✓
Genius Webinars	✓	✓	✓	✓
Product spotlight micro-courses	✓	✓	✓	✓
Automation technology knowledge assessments	✓	✓	✓	✓
PLATFORM FEATURES				
On-demand or on-premise for e-learning	✓	✓	✓	✓
Adaptive ethics dashboard for multi-users	✓	✓	✓	✓
Reallocation of user access	✓	✓	✓	✓
SKILL SETS				
Annual subscriptions	✓	✓	✓	✓
Single course 90-day test pass	✓	✓	✓	✓
