Issue Highlights

- 440E Lifeline™ 5 Cable Pull Switches
- ASEM 6300B Box PC and 6300T Box Thin Client
- Rockwell Automation ArmorKinetix
- **Product Discontinuation:** RSLogix™ 5
- LifeCycle Services
- 2026 Workforce Development

Product Showcase

440E Lifeline™ 5 Cable Pull Switches

Allen-Bradley's Bulletin 440E Lifeline™ 5 Cable Pull Switches are microprocessor-based solutions that bring advanced features and diagnostics that help enhance safety and improve productivity.

Dual head version

- Includes an electronic rope monitoring system that monitors the cable span and compensates for thermal expansion
- Offers rugged stainless steel (IP69K) or die-cast aluminum (IP66) housings with optional E-stop button
- Supports long cable spans up to 100 m (328 ft) span
- Provides wide operating temperature range -20...+75 °C (-4...+167 °F)
- Offers LED operating status indicators (visible from a wide 270°) that provide diagnostics for switch and tensioning setup
- Includes M12 5-pin connector for direct connection or M12 8-pin connector for series connection while maintaining the highest level of safety

Supports applications that require uninterrupted access to an E-stop, and include:

- Material handling equipment
- Distribution centers
- Food and beverage

ASEM 6300B Box PC and 6300T Box Thin Client

Capabilities

- Centralized operational control and zero client hardware management
- Mobile device support for any existing production application
- Applications dynamically delivered to based on event, location or centralized user login

Benefits

- Reduced cybersecurity footprint with zero clients
- Simplify application and patch management for IT
- Reduce time to replace and commission workstations
- Containerized applications reduce IT infrastructure needs

Product Discontinuation: RSLogix™ 5

On December 31, 2025, RSLogix™ 5 has been **discontinued and no longer available for sale**. This change follows **eight years** after the Allen-Bradley® PLC-5® control platform from Rockwell Automation was officially discontinued (2017) and is also no longer available for sale.

It's Time To Act!

Rexel is ready to assist you with:

1. Assessing the number of licenses that you have available to you and if they're sufficient to continue to operate your systems.
2. Identifying any changes to your support plan with this lifecycle change.
3. Reviewing how the lifecycle change measures against your company's technology policies, including maintaining a discontinued product

If modernization is not in the plan today, no problem!

Rexel & Rockwell Automation are ready to support your systems.

Build Knowledge and Expertise

Want more information? Ask your authorized Allen-Bradley® distributor which **Learning+ training subscription** is right for you, or visit: rok.auto/training

Our E-learning courses include fundamental and product-specific topics delivered directly to your plant floor or location of your choice. Each learning module contains activities, software simulations and demonstration videos to help reinforce learning concepts. Virtual classroom sessions include modularized virtual lectures, lab experience demonstrations, simulations and demonstration videos.

Office hours are available for small group coaching to enhance learning concepts. More capabilities and more content. Live and on-demand Genius Webinars are featured monthly, and content is continuously being developed. Assessment tools help baseline your knowledge and e-learning modules are available in multiple languages.

For questions, please contact
Amber.Manno@RexelUSA.com.

Upskill your employees with flexible, on-demand training solutions

You're challenged to provide your current workforce with the technical skills and knowledge that will keep your production environment operating smoothly. Our Learning+ training subscription provides the valuable instruction that you need, with today's flexible workforce requirements in mind.

Expanded training options now available
