

# FRONTIER

THE FUTURE OF INDUSTRIAL AUTOMATION

## Welcome to the Future of Machine Interface

ASEM 6300 is Rockwell Automation's portfolio of industrial computers, thin clients, and monitors designed for plant-floor HMIs. Combining open PC performance with modern visualization, ThinManager-ready deployment, and secure remote access. Deploy faster, simplify maintenance, and scale from basic operator stations to multi-display 4K.

## Save Downtime and Maintenance Budget With Rockwell Repair & Reman

When critical automation fails, speed matters, but so does reliability. Rexel helps you reduce outages and cost with Rockwell Automation's official Repair, Remanufacture, Exchange, and Warranty programs.

### Why it beats typical third-party repairs:

- **Like-new (or better) restoration** via Rockwell's validated remanufacturing process
- **Component-level replacement + firmware updates** (avoids mismatches)

- **Full functional + environmental testing** before it ships
- **Renewed Rockwell warranty** for predictable performance
- Helps reduce risk from **counterfeit parts and cybersecurity exposure**

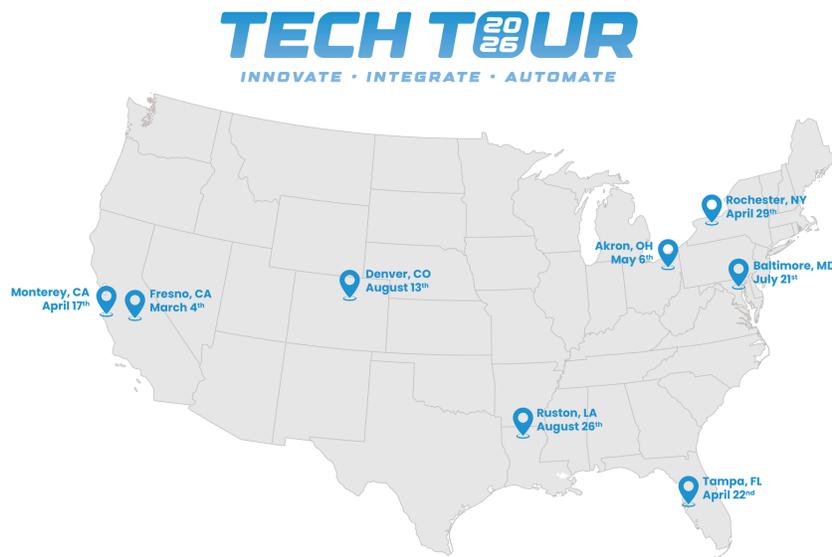

**Best fit for:** Aging PLCs/drives, recurring failures, long lead-time replacements and hard-to-find legacy parts, and plants trying to cut emergency downtime and spare spend.

## Automation Innovations

Free Lockbox with Brady Velocity Locks

**BRADY**

**HURRY! DON'T MISS OUT ON THIS LIMITED-TIME OFFER!**

**STOCK UP & SECURE**  
FREE LOCK BOX WITH PURCHASE OF VELOCITY PADLOCKS

**Lock in savings with Brady Padlocks**  
Purchase ANY 12 Velocity padlocks on a single order and receive a portable lockbox at no extra cost.

**Purchase 12 padlocks:**  
Individual, (2) 6-packs or (1) 12-pack

**How to redeem**

- Submit your proof of purchase at [bradypromotions.com](http://bradypromotions.com)
- Customers receive free lockbox within 20 business days

**Receive ONE Portable Metal Group Lock Box for FREE**  
Valued at \$62.99

**DON'T WAIT!**  
Offer valid April 1 - June 30, 2026

Stock up on Brady Velocity padlocks and get more value! Purchase any 12 Velocity padlocks on a single order and receive a FREE portable metal group lock box.

Simply upload your invoice at [BradyPromotions.com](http://BradyPromotions.com) and Brady will ship the lockbox directly to the end user within 20 business days.

Valid from April 1 - June 30, 2026.

## Certify More Fiber. Build Faster Data Centers.

**REXEL** | **FLUKE**  
Your Metering & Testing Partner

### CertiFiber® Max MultiFiber Testing for Today's High-Density Networks

As data centers move to higher-density MPO/MMC, fast, accurate multi-fiber certification is essential. CertiFiber Max tests loss, length, and polarity on up to 24 fibers in one second, speeding turn-ups while reducing rework risk. Field-replaceable UniPort adapters (pinned or unpinned) add flexibility for evolving architectures, all on the proven Versiv platform to meet standards and deadlines. **Maximum fibers. Maximum efficiency. Maximum advantage.**

**SET REFERENCE** 2:35pm

**Parts Required**

- Remote**
  - Output: OUT SM MPO16P
  - Input: IN MPO12P
  - TRC: TRC-SM-Y-MPO12U-REM
- Main**
  - Output: OUT SM MPO16P
  - Input: IN MPO12P
  - TRC: TRC-SM-Y-MPO12U-MAIN
- Verification Cord**
  - TRC-SM-MPO12P-MPO12P

**SET REFERENCE** 8:30:05 am

Connect the red branch of the TRC to the output port.

**SET REFERENCE** 8:33:13 am

The reference is set.

- Power: -14.00 dBm
- Polarity: Type A

**SET REFERENCE** 8:56:40 am

The TRC verification result is saved with this ID: TRC20251008:08:56:25

- Loss: 0.28 dB
- Margin: 1.22 dB
- Length: 4.08 m
- Polarity: Type A

## Smarter, Safer Power for Industrial Automation

Panduit's Fault Managed Power System (FMPS) delivers higher power over longer distances while maintaining Class 4 safety, making it ideal for industrial automation, IIoT, lighting, and control applications. By combining power and safety in a single infrastructure, FMPS helps reduce installation complexity, improve uptime, and support the next generation of smart industrial systems.

Application Guide

## Designed for Clean, Compliant Industrial Environments

Panduit's antimicrobial, metal detectable cable ties and mounts help manufacturers meet strict hygiene and safety requirements in food, beverage, and pharmaceutical facilities. Designed to inhibit bacterial growth and be easily detected by metal detectors or X ray equipment, they support compliance while maintaining secure, reliable cable management in demanding environments.

Product Profile

## Elevate Safety & Compliance with Hubbell's Circuit-Lock® Motor Disconnects!

Hubbell's Circuit-Lock® disconnects are not just meeting code requirements; they're exceeding performance expectations, even in the toughest environments. Our latest innovation enhances hygienic practices by effectively shedding water, dirt, and debris. Plus, with groundbreaking inSIGHT™ indicators, it's taking safety to the next level.
